## Concentrated Wealth and Power

By Russell Maguire

**W**HEN the government of old Egypt fell, four per cent of all the people owned all the wealth.

When the Babylonian *civilization* toppled, three per cent of the people owned all the wealth.

When old Persia went down to destruction, two per cent of the people owned all the wealth.

When ancient Greece fell in ruins, one-half of one per cent of the people owned all the wealth.

When the Roman Empire fell on its face, two thousand people owned the wealth of the civilized world. Then followed the Dark Ages, from which the world did not recover until wealth was no longer concentrated.

Today less than one per cent of the people controls 90 per cent of the wealth of these United States. A handful of alien bankers who run the Money Monopoly control most of it.

The Rothschilds lead that ownership group. *One* of their companies is Societe Generale de Belgique. It alone owns and operates 1,500 powerful *holding* companies, each of which has astronomical assets.

Many corporation names are used to help fool people about the real owners. The assets of of the Rothschild's interests alone, researchers say, are in excess of \$300 billion.

The foregoing disasters, as well as our own serious condition, were all brought about by the same thing: namely, the power in the hands of individuals or private groups to issue and control the value and the volume of the money of our nation.

This Money Monopoly, of course, was obtained by bribery, corruption and trickery.

Will our overtaxed citizens carry on in false hope and unnecessary ignorance and let our nation collapse, as did all of the above countries? Or will they arouse and inform themselves. *You can* stamp out this merciless Babylonian debt money system that always brings unhappiness and destruction. We can do as Lincoln intended doing, establish a really equitable monetary system, and an economic security for all! Our Constitution wisely provides that your Congress alone can issue money and regulate its value.

You, the sovereign people, are su-

preme if you will wake up and act!

As C. H. Douglas wisely stated: "Power comes not from charging interest but in creating new claims and **appropriating** them. When the usurer lent the original coinage, he created a debt claim and appropriated the interest. When, however, he began **to create and loan non-existent money**, as our privately-owned Federal Reserve Banks do today (see details in *Money Made Mysterious*), **he appropriated both interest and capital.**"

As informed people know, the League of Nations and the UN were created to serve as a collection and enforcement agency for the IBS.

The International Bank of Settlement (the bankers' central bank) was founded in 1930. It was the financial keystone of their conspiracy.

Later, to set the stage for the greatest drama ever to be played since the crucifixion, two International super-state organizations were saddled on the people of our country: (a) The International Monetary Fund, and (b) The International Bank of Reconstruction.

These two super-national institutions have secret powers and privileges beyond your wildest dreams. They include the **power to judge, determine their own status, and enforce their own decisions over all subordinate member nations.** They alone have unparalleled rights and privileges and immunities. They name their successors. They

are not subject to taxation nor to investigation. They have diplomatic immunity and can bring boatloads of items into our country (or take them out) immune from search. They cannot be punished even for murder. They have taken our gold, and even have the power to order us to turn in our currency and take any other currency they designate. For details read *International Bankers Scuttling our Nation* in our book, *Money Made Mysterious*.

A MOUNTAIN of documents show that the international conspirators have dominated Red Russia since they brought about a revolution in that unhappy country. As we have advised you many times, their co-workers in the United States consistently have helped build up and arm Soviet Russia. At the same time, the enemies within continuously have worked to weaken and destroy these United States. This they effectively did through international tax exempt organizations like the UN, UNESCO, NATO, the banks mentioned above, and others. Their plan was to hold the U. S. back while they pushed forward Soviet Russia with our money, equipment, know-how and stolen military secrets. The Plan was to bring about the current condition where the invisible government could force the mental-midget leaders in the U. S. to surrender."

God help us to wake up and clean house!
